blocking your own breakthrough

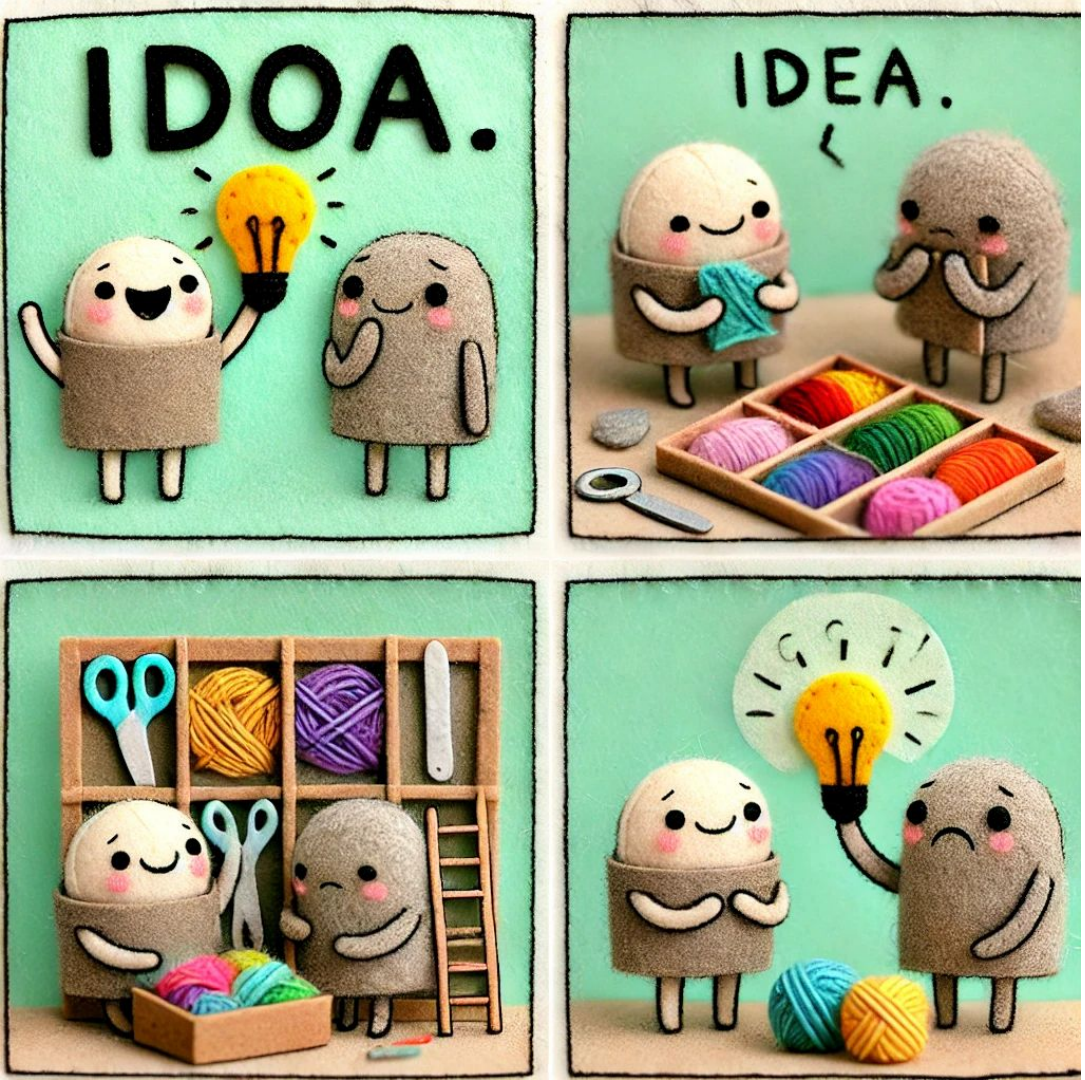
don't be the ops team

where things go that no one else wants

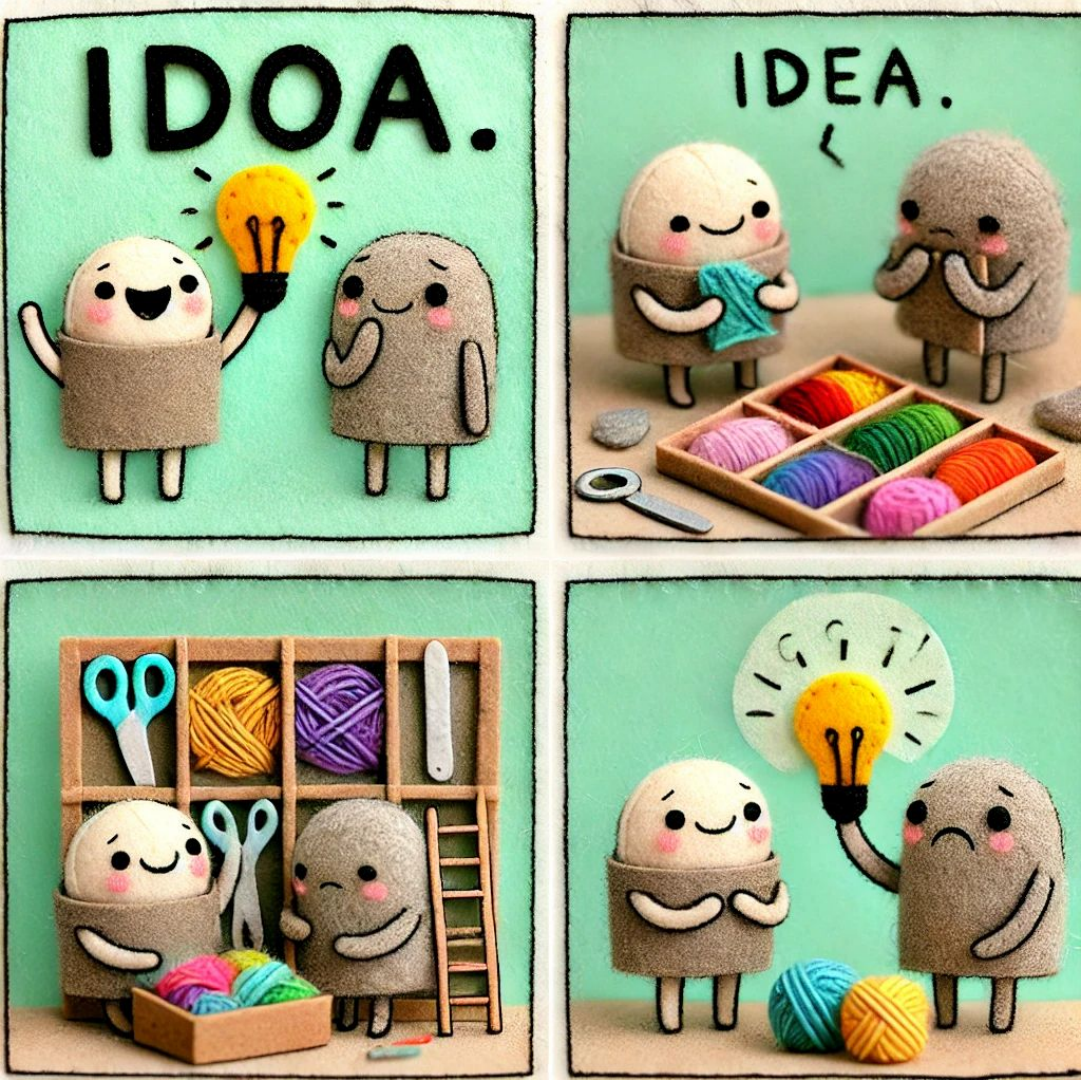
don't be the slasktratt

all in one, none in focus

don't solve all problems with one solution



lost in construction



don't build what
you think they want

worse than a paper cut

don't die the death of a thousand migrations

do

1. empower developers
2. have a clear vision
3. a thinnest viable platform
4. treat it as a product
5. smooth and fast migrations

everyone becomes a happy potato
